DATA ANALYSIS – INTERNSHIP PROJECT REPORT

BUSINESS MODEL

Vethnix is a **cybersecurity and forensic science training institute** based in **Kochi, Kerala, India**. It provides education, training programs, and certifications for people who want careers in **cybersecurity, ethical hacking, and digital forensics**

Their courses include:

- **Vethnix Certified Hacker (VCH)**
- **Vethnix Certified Penetration Tester (VCPT)**
- **Advanced Purple Teaming (APT)**

How they get students (Marketing)

- Instagram & LinkedIn content
- Workshops & events (to attract leads)
- Word of mouth / referrals

Who they sell to (Target Audience)

- College students interested in cybersecurity careers
- IT professionals wanting to upskill
- Anyone wanting to get into ethical hacking / forensics

SOCIAL MEDIA PERFORMACE TRACKER (EXCEL)

Track every post to find what content performs best

Post #	Date Posted	Day of Week	Post Type	Topic / Theme	Views	Likes	Comments	Shares/saves	Engagement Rate	Caption Has CTA?	Interactions	saves	profile visits
5	09-Jan-26	Friday	Static Post	student placed	609	23	2	1	4.3%	No	27	1	5

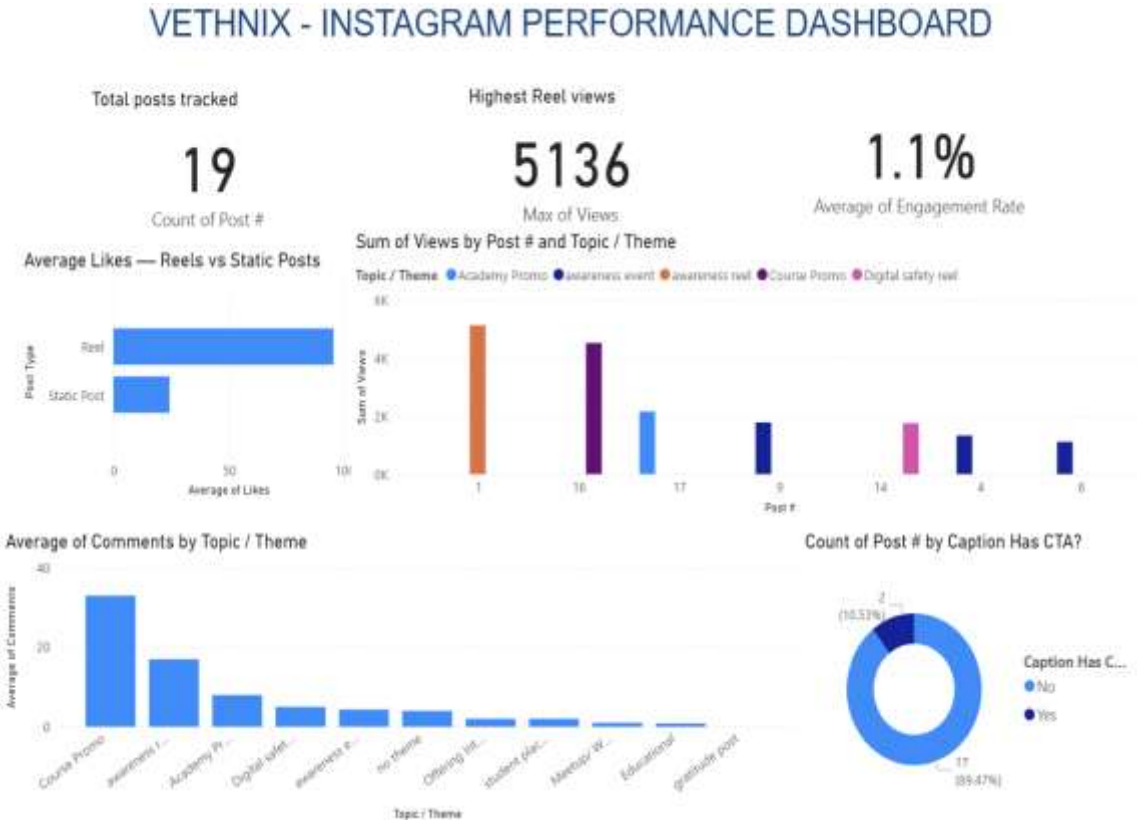
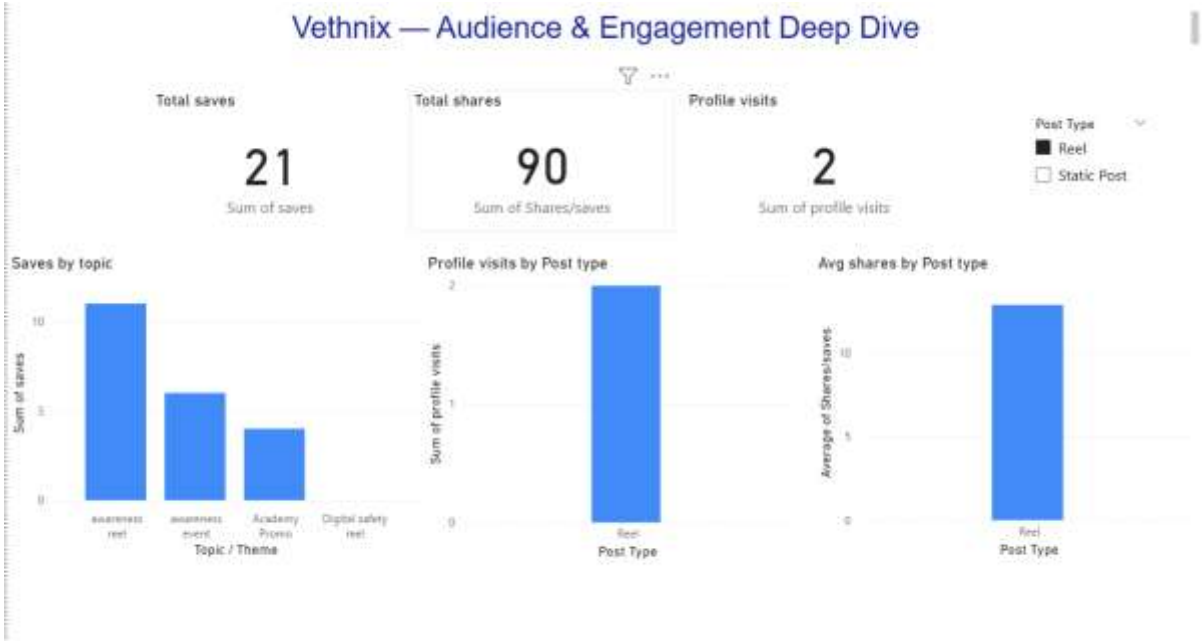
DASHBOARD (POWER BI)





<u>Week 1 - Findings</u>

Only 2 out of 19 posts have a CTA

Insight: No CTA = views don't convert to leads

Posting Frequency

- Posting roughly **once a week**
- Some gaps of 10+ days (e.g. Feb 7 to Feb 16)
- *Insight: Inconsistent posting hurts algorithm reach*

Topic Performance

- Course Promo → highest likes + comments
- Awareness reels → highest views but lower comments
- Educational static posts → consistently lowest engagement (1–13 likes)
- *Insight: Educational content needs to be in Reel format to get attraction*

Performed social media data analysis and provided actionable business recommendations for a cybersecurity edtech startup

COMPETITOR ANALYSIS

- RedTeam Academy
- Offenso Academy
- Cyber Campus

VETHNIX — Competitor Analysis (Instagram)

Data collected: March 2026 | Source: Public Instagram profiles

INSTAGRAM PROFILE COMPARISON

Location	Founded	Followers	Total Posts	Followers/Post	Niche Focus	Content Strategy	Unique Advantage	Threat Level
Calicut/Kochi/TVM	2023	1,15,000	185	621.6	Cybersecurity	Quality content, low volume	CompTIA accredited, 3 branches, Kerala Startup Mission recognised	HIGH
Kochi/8 other	2016	68,100	2030	33.5	Ethical Hacking	High volume, consistent posting	68K followers via 2030 posts — sheer consistency	HIGH
Kochi	2016	12,400	1056	11.7	Digital Marketing + Cyber	Quantity over quality	Broader scope — Digital Marketing + Python + Cybersecurity	MEDIUM
Kochi	2024	2,218	68	32.6	Cyber + Forensics	Inconsistent, mostly static	Kerala's ONLY cybersecurity + forensic science academy	N/A (Us)

Offenso	RedTeam	Cyber Campus	Vethnix	Vethnix Gap vs Best	Priority to Fix
1,15,000	68,100	12,400	2,218	~113K behind leader	HIGH
185	2,030	1,056	68	1,962 behind RedTeam	HIGH
Regular	Daily	Regular	Weekly	Need 3x per week min	HIGH
Yes	Yes	Yes	11%	89% posts missing CTA	HIGH
70/30	80/20	60/40	37/63	Need more reels	MEDIUM
No	No	No	Yes ☑	UNIQUE ADVANTAGE	LEVERAGE
Yes	Yes	Yes	Yes	On par	NEED UPDATES

KEY OPPORTUNITY FOR VETHNIX

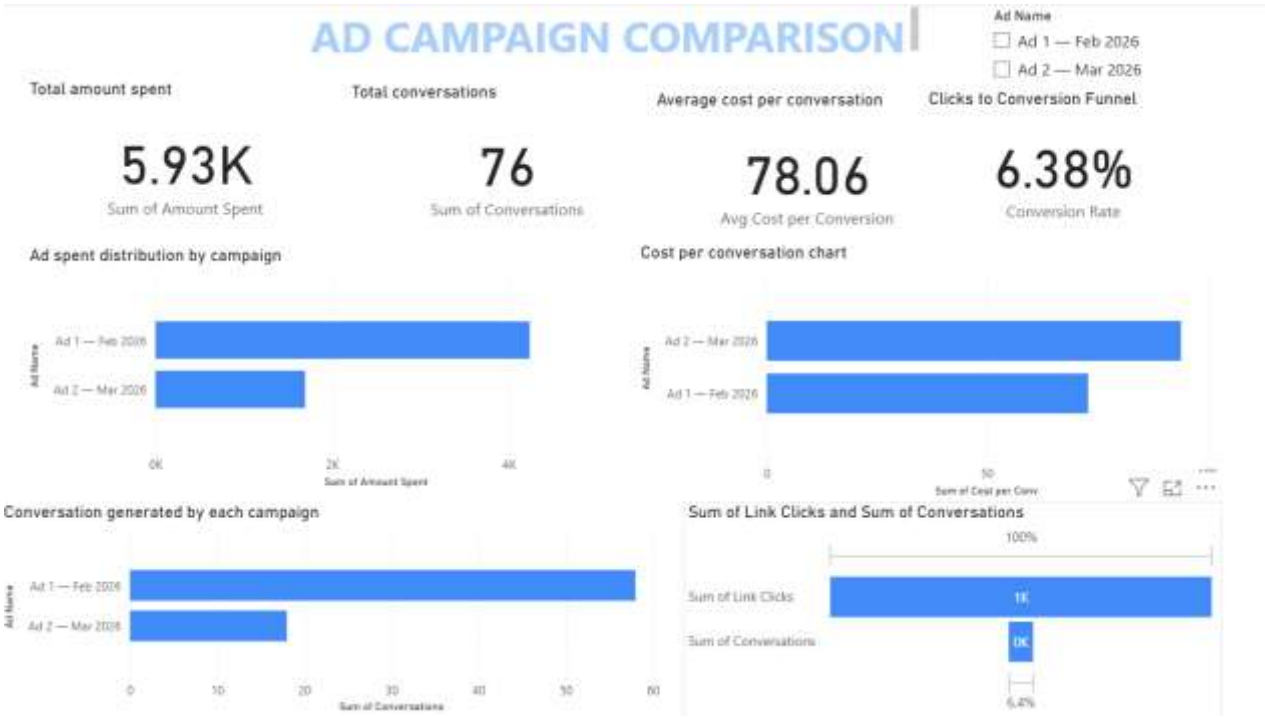
- None of the 3 competitors offer forensic science. Vethnix should market this heavily as their USP instead of competing head-on in cybersecurity.
- Offenso- Quality over quantity — 115K followers with only 183 posts. Vethnix should focus on high-quality reels rather than posting everything.
- Red Team- Consistency built 68K followers via 2,030 posts. If Vethnix posts 3x/week for 1 year = 156 posts — significant growth expected.
- Add CTA to every post immediately. This costs nothing and could double lead generation from existing reach.

CONTENT STRATEGY COMPARISON

CONTENT TYPE & THEMES					
Company	Primary Content	Post Frequency	Strengths	Weaknesses	What Vethnix Can Learn
Offenso	Course promos, events, achievements	2-3x/week	High quality graphics, strong brand identity, clear CTAs	Low volume — slow follower growth	Match their graphic quality; add CTAs like them
RedTeam	Tutorials, tips, ethical hacking reels	Daily	Extremely consistent, educational value, huge reach	Content can feel repetitive	Post educational reels consistently — even simple tips get views
Cyber Campus	Course ads, student testimonials, offers	2x/day	High frequency keeps them visible	Quality is low, generic content	Don't copy this — quality over quantity
Vethnix (now)	Awareness, events, some course promo	1x/week	Good reel quality when posted	Breaks, no CTA, too many static posts	Fix consistency + CTA first
Vethnix (ideal)	Forensics tips, cyber news, course promos	3x/week	Unique forensics niche nobody else covers	Still building brand recognition	Own the forensics space on Instagram Kerala

RECOMMENDED CONTENT PLAN FOR VETHNIX (3 posts/week)					
Day	Post Type	Topic	Format	CTA	Goal
Monday	Educational Reel	Cybersecurity/Forensics tip	Reel (30-60 sec)	Comment 'INFO' to learn more	Reach & awareness
Wednesday	Course Promo	Specific course highlight	Reel or Carousel	DM us to enroll / Link in bio	Lead generation
Friday	Student Story	Placement / testimonial	Static or Reel	Tag someone who needs this	Trust building

Ad campaign comparison



1. Ad 1 was more efficient ₹4,237 spent → 58 conversations → ₹73/conv Ad 2 spent ₹1,460 → only 13 conversations → ₹110/conv Ad 1 gave more leads for less money per lead.

2. Ad 2 had better CTR 699 link clicks vs 479 in Ad 1 — meaning Ad 2 creative was more attractive to click. But clicks didn't convert to conversations as well.

3. Conversion rate is 6.38% Meaning out of everyone who clicked — only 6.38% actually sent a WhatsApp message. This is low and needs improvement.

4. Total ₹5.93K spent across both ads for 76 total conversations — average ₹78 per lead overall.

Content Strategy Insights

- Reels consistently outperform static posts in reach and engagement, indicating that short-form video should be the primary content format for audience acquisition.
- Awareness-based content generates high impressions but fails to convert, highlighting a gap between visibility and actionable engagement.
- Course promotion content drives higher interaction (likes/comments), suggesting that users respond better to clear value propositions rather than generic educational posts.

Conversion Funnel Insights

- Despite achieving a reasonable number of link clicks, the conversion rate (6.38%) remains low, indicating friction in the post-click experience (landing/CTA stage).
- Lack of clear Call-To-Action (CTA) in most posts significantly reduces lead generation potential, as users are not guided toward the next step.
- Direct-response CTAs such as “DM”, “WhatsApp”, or “Comment keyword” are likely to improve conversions by reducing user effort.

Audience Behaviour Insights

- Users are more inclined to engage with interactive, activity-based content rather than theoretical or informational posts.
- Parents (decision-makers) respond better to value-driven messaging (safety, career, skills), while students respond to fun and experiential elements.
- Content that combines entertainment + practical value performs better than purely educational content.

Content Optimization

- Shift majority of content strategy to Reels (minimum 70%) focusing on high-energy, visually engaging formats.
- Convert educational content into demonstrative or activity-based reels instead of static posts.

CTA & Conversion Improvement

- Ensure every post includes a clear and actionable CTA (e.g., “DM to register”, “WhatsApp now”).
- Use keyword-based CTAs (e.g., “Comment ‘SPY’”) to increase interaction and trigger conversations.
- Reduce conversion friction by directing users to instant communication channels (WhatsApp/DM) instead of external links.

Positioning Strategy

- Strongly highlight Forensic Science as a Unique Selling Proposition (USP) since competitors focus primarily on cybersecurity.
- Position Vethnix not just as a training institute, but as a practical skill development platform with real-world exposure.

Consistency & Growth

- Maintain a consistent posting schedule (minimum 3 posts per week) to improve algorithm visibility and audience retention.
- Focus on quality over quantity, ensuring each post has a clear objective (awareness, engagement, or conversion).
